## Tips for wedding favors by Yolanda Nash

### History of Favors

Favors have been around for hundreds of years and it was believed that the first favor was a sugar cube and was given as a way to express the couples gratitude to the guests for being a part of such a memorable time.

Today wedding favors have definitely evolved into very beautiful, unique and personalized keepsakes. They come in different shapes, sizes and colors. Wedding favors are the most popular and mainstream way to tell your guests thanks.

### Should I make my own?

If you decide to make your own favors and have a huge guest list then realize how tedious this task will be. You will have to wrap, write and deliver. This is why many shops have taken advantage of this niche. These businesses will provide you with all sorts of wedding favors for almost any theme available. If you are choosing a local favor supplier than often they will handle everything for you. You just pick the favors you would like and they will set them up at your reception. If you are doing a search for wedding favors on Google then you can just type in whatever favor you are looking for and in a week or less you will have your favors.

### How do I choose?

With so many different wedding favors around it is definitely hard to choose. First, think about your budget. If you are having 200 guests then the price will add up really quick. Second, have a good idea of how many guests and couples are coming to the wedding. If you choose to go with a more expensive favor then one favor per couple will do. Third, think of the theme of your wedding. If your having a Las vegas style wedding then you would want to choose a favor that is related. Personalize your favors they make your guests feel more special and it makes it a great keepsake for your wedding. Remember favors will often reflect your personality and your gratitude so choose them wisely.

Yolanda enjoys decorating the wedding receptions that she plans because she gets to see all the different table decorations, flowers and wedding party favors. She is a wedding planner and the owner of Yolandas wedding favors.
